Figure 1 is a screenshot of a software interface for creating an XML document. The interface is divided into several sections: 1501 (Project browser on the left), 1502 (Main workspace), 1503 (Document Root Properties dialog box), 1504 (XML Document Editor window title bar), and 1505 (A large empty area for the XML document content). The dialog box 1503 shows fields for Name (Root), Type (MetaObject, Document, Name), and Fields To Use. The main workspace 1502 shows a tree view with nodes like Data Access, Business Logic, Views, and Components.
